## PROFILE

I am a highly motivated individual with a strong academic background in Mathematics and Computer Science. With a passion for the field of computers, I have acquired knowledge in multiple programming languages including C, C++, JavaScript, and SQL. Additionally, I am proficient in web technologies such as HTML, CSS, and the Bootstrap Framework. I am also familiar with Node.js and Express.js for server-side development. Furthermore, I am experienced in working within a Linux environment, possess basic shell scripting skills, and have a foundational understanding of Python.

My problem-solving and critical thinking skills enable me to analyze complex issues and develop effective solutions. As a recent graduate, I am eager to apply my skills and knowledge to real-world scenarios and continue to develop my abilities in a dynamic environment. I am a quick learner, adaptable, and always willing to take on new challenges. With excellent communication and teamwork skills, I am confident that I would be a valuable asset to any organization.
